## *The Dome Experience*

For six months of the year, CEDEP hosts a Dome structure in the campus gardens for your special seminar needs. The Dome not only looks truly amazing and offers a totally different experience but you can design all kinds of events in here, including traditional conferences and workshops, cocktails, dinners and group work to create a WOW effect for your event.

The CEDEP campus, surrounded by the Fontainebleau forest, gives your event an exceptional quality with the impression of working outside inside.

The Dome has all the same facilities as our other rooms with high quality IT and networking tools, as you and your organisation requires. We are completely flexible to adapt to your needs and space set up.
