EDITO

Welcome to 2017.

We hope you have had a look at our new website since our last newsletter and found time to enjoy our CEDEP Best of 2016 video. 2016 brought a lot of new and exciting projects to Fontainebleau (and abroad) and we hope 2017 will bring just as many.

This year we have more programmes in Canada, Poland, China and the US as well as two new ones in Singapore. CEDEP continues to follow its members all over the globe to develop executives.

We hope you will be able to join us in Fontainebleau on Friday 16 June for our biggest Annual Alumni reunion yet. It will be the opportunity to reconnect with your classmates and favourite faculty, and discuss your organisational or personal ambitions.

Wishing you all a fruitful 2017 and looking forward to seeing you soon.

Thomas Hinterseer

CEDEP WEBINAR SERIES

In 2016 we launched the CEDEP Webinar Series and started with sessions focusing on our Open Enrolment programmes: Tax Leadership Programme, with Wim Wuyts, MBE programme with Dominique Jacquet and AME Programme with Guido Verswijvel. We will be launching a new series in the coming months but would be delighted to hear from you about topics which could be of interest. Please contact us if you have webinar topics or ideas.

ANNUAL ALUMNI REUNION - 16 JUNE 2017

EVENTS

Please save the date now for our Annual Alumni Reunion taking place in Fontainebleau on Friday 16 June. Places will be limited so make sure to let us know ASAP if you will be attending. So far we have an exciting agenda planned with Jay Shetty (one of Forbes' 30 under 30 list, and described as 'Silicon Valley meets human consciousness') opening our event; Nadya Zhexembayeva, our own Chief ReInnovation Officer and member of our Academic Committee; The Meeting Arts Concept Team who will be bringing a creative, neurocognitive session to the table; and our usual CEDEP suspects! We'll be offering outdoor sessions (whether permitting) of mindfulness and yoga too to ensure you all have a rewarding and relaxing day! You'll also have the opportunity to see our newly acquired Dome.

Full programme details to follow: we don't want to give it all away now - but make sure you don't miss this exciting day of Experience, Experimentation and Endurance.

→ PLEASE CONTACT DEBBY.MONTELLY@CEDEP.FR FOR MORE ALUMNI INFO.
We look forward to seeing you soon! If you would like to organise a reunion with your group and invite a CEDEP faculty guest to speak, it would be our pleasure to help you organise it and we are already looking forward to it!

NEW AT CEDEP

THE DOME EXPERIENCE

A whole new world of teaching & learning

From this spring, CEDEP will be hosting a Dome Structure in the campus gardens for six months of the year. The Dome not only looks truly amazing and offers a totally different experience but it offers a space for all kinds of events, including traditional conferences and workshops, cocktails, dinners and group work to create a WOW effect for your event.

The CEDEP campus, surrounded by the Fontainebleau forest, gives your event an exceptional quality with the impression of working outside inside.

The Dome has all the same facilities as our other rooms with high quality and networking tools. We are completely flexible to adapt to your needs and space set up. We are already taking reservations so please get in touch if the Dome could respond to your training needs.

[Click here to download the full detailed description of the Dome](#)

THE CEDEP CONTENT LAB - 16 NOVEMBER 2016

In November, CEDEP ran its first Content Lab in partnership with General Assembly. GA is a pioneer in education and career transformation, specialising in today's most in-demand skills. The leading digital source for training, staffing, and career transitions, they foster a flourishing community of professionals pursuing careers they love. Today they have campuses in 20 cities and over 35,000 graduates worldwide.

Together, we looked at GA's research from the past four years which has observed founders of digital native start-ups as well as executives at large companies who are successfully adapting their leadership to the digital age. Their framework focuses on five key characteristics: Customer centric, Open and Fluid, Experiment, Focus Externally and Be Data Driven.

If you would be interested in receiving the notes of the day, please don't hesitate to contact us.

THE FLOOR IS YOURS

SIMON POOLE, CEO,
SPLASH PROJECTS

Splash Projects has partnered with CEDEP for nearly a decade. We have seen over 1000 of our participants take part in this intensive and rewarding leadership and team building initiative, which has also helped local charities and associations in the region.

Simon has enabled 30,000 participants to succeed in leadership and management training projects all around the world since he set up Splash in 2004. He has worked with many top business schools, universities and international organisations, delivering projects which have improved the lives of thousands of people in hospices, children's homes, homeless shelters and aid centres.

After 25 years with the British military, Simon created Splash to combine his leadership training experience with a desire to help communities in need. CEDEP are proud and privileged to work with the Splash team.

"The powerful learning experience we have developed with our partners, CEDEP demonstrates how powerful business can be when it is targeted in the right way. Participants return to their workplaces inspired and with a greater understanding of what motivated individuals and teams can truly achieve together".
